Pickard Chilton Designing ExxonMobil's New Office Complex In Houston

Contact: Mig Halpine, Director of Communications (203) 786-8612, mhalpine@pickardchilton.com

NEW HAVEN, CT — New Haven, CT-based, Pickard Chilton said today it planned and designed ExxonMobil's new office campus that will be developed in north Houston, Texas.

Pickard Chilton's design for ExxonMobil's new office complex comprises multiple low-rise office buildings, a laboratory, conference and training centers and facilities such as child care, a wellness center and other employee amenities. Pickard Chilton's collaborators included PDR as Program Manager and Interior Architect, Gensler as Record and Interior Architect, and Hargreaves Associates as Landscape Architect.

"ExxonMobil's new campus has been a milestone project for our firm," said Jon Pickard FAIA, RIBA, Principal of Pickard Chilton. "Designing such a significant complex for a sophisticated global corporation like ExxonMobil has been an honor."

Currently under construction, the complex has been designed to high standards of energy efficiency and environmental stewardship, and will promote new opportunities for employee collaboration in their daily work.

"From the start of this development, it has been clear that the project is about ExxonMobil putting its employees first," said firm Principal William Chilton FAIA, RIBA. "It is always rewarding to work with clients that appreciate and value the impact that quality architecture can have on their business and their employees' well-being."

Principal Anthony Markese AIA, LEED AP agreed. "Throughout the design process, we maintained the mindset of inspiring greatness - creating an open and welcoming environment for the employees to enjoy within this beautiful site."

Construction and ongoing operations will create thousands of jobs, substantial state and local taxes and significant benefits to the Texas and Houston-area economy.
